

## **BE WILD**

Last night time was slipping away  
It came, it slowly faded away  
It's only got one clear cut course  
Driving through our lives, an evil force

But it don't, it don't got the style  
Baby, I wanna be wild

You can't ever get out of this world  
Without your soul being unfurled  
It's been a sin since we were born  
Our hearts and minds have become worn

But I'll still run the extra mile  
Baby, I wanna be wild

You don't gotta be afraid  
For this is how I was made  
A storm's coming to grab hold of my heart  
Coming to tear my whole world apart

But I'll just hold my ground and smile  
Baby, I wanna be wild  
I wanna be wild
