

CLIMB ON BOARD

Oh things are falling apart
Dark times are here now
Won't you climb on board
Won't you climb on board
Oh the rain is here
We can make it disappear
If you climb on board
If you climb on board
I know you like running around
It's not like you to stick around
I know you need a wide open field
Won't you climb on board

Oh time goes by fast
We can slow it down
If you climb on board
If you climb on board
Oh I hear death's a trick
We can pull the scheme off
If you climb on board
If you climb on board
I know I can't promise you gold
I know that things may get old
But sometimes you got to take a chance
Won't you climb on board

Oh love's gone away
We can bring it back
If you climb on board
If you climb on board
Oh the party's coming to an end
We can keep it going
If you climb on board
If you climb on board
I know you like to roam free
But think of all the things we'd see
Come on, give me your hand
And won't you climb on board
