

TURN IT UP

My band's playin' down on 53rd
No goals in mind except to be heard
Strengthening one more life each and every day
But the neighbors say, "son, you gotta stay away"

Turn it up loud
Turn it up strong
I wanna go where guitars and drums turn right from wrong
Turn it up loud
Turn it up strong
Bring all the power you got, c'mon and sing along

Flags are down, people's head hung low
Money's tanked, their souls need a new show
C'mon over to my house, yeah right about five
We'll ditch that despair and make you alive

Turn it up loud
Turn it up strong
I wanna go where guitars and drums turn right from wrong
Turn it up loud
Turn it up strong
Bring all the power you got, c'mon and sing along

Oh it's alright
Oh it's alright

Curfew's set, midnight is the call
The man in the suit says "put the amps back behind the wall,
Show's over, there's always other nights,
Do us a favor, son, turn out the lights"

Turn it up loud
Turn it up strong
I wanna go where guitars and drums turn right from wrong
Turn it up loud
Turn it up strong
Bring all the power you got, c'mon and sing along
Bring all the power you got, c'mon and sing along

Oh it's alright
Oh it's alright
